## Market News

NEW YORK, Jan. 24.—Developments over the week-end recede far from stimulating, especially in their exposition of industrial conditions, but today's stock market denoted a more cheerful tone, although operations were light.

The most encouraging and significant incident of the session from the bankers standpoint was the success of the Belgian \$20,000,000 loan, the subscription books being closed almost immediately after the public offering.

Steels and equipments, which were expected to yield to adverse advices received from Pennsylvania and Ohio concerns were comparatively strong.

Gross gains of one to seven points were retained until the final hour when selling, induced by the stiffer trend of call money, provoked general profit taking.

Mexican Petroleum, Crucible Steel, General Asphalt and American Industrial were not susceptible, declining one to four and one-half points, with a general cancellation of gains elsewhere. Sales amounted to 500,000 shares.

Added to its moderate irregularity on a slight accession of business, the bond market including Liberty issues and foreign war offerings, was featureless. Total sales, par value, \$11,800,000.

Old United States government bonds were unchanged on call.

CHICAGO, Jan. 24.—Wheat prices developed fresh strength today, influenced by signs of continued export demand. France was said to be asking for offers of 900,000 bushels. Opening prices which varied from unchanged to 1 1/2 higher with March 1.57 1/2, 1.58 1/2 and May 1.58 to 1.59 were followed by a material upturn all around and then something of a reaction.

Corn, oats and provisions also ascended. Statements that importing countries need 280,000,000 bushels of wheat and eye in excess of the surplus of exporting countries, had considerable bullish effect. The close was unsettled, 3 1/4 to 4 1/4 net higher, with March 1.70 1/4 to 1.71 and May 1.61 1/4 to 1.61 1/2.
